Two concerts spanning the years since European settlement in Australia. So many people have quietly made their mark and helped to form this fortunate nation. We invite you to join us to meet some of them.

**Part 1** takes us from the first attempts to build a community by bringing over some civilising influences - i.e. women! through to the Great War, which sadly was to become known as the First World War far too soon.

**Part 2** continues the journey through the Great Depression to the present day sampling culinary delights and meeting a few quintessentially Australian characters.
